

LEADERSHIP FUNDAMENTALS

The first time we are required to lead others can be challenging. The transition from an individual contributor to a leader can be one of the most testing changes we face. Often we move into it with very little preparation or without really understanding the fundamentals.

At The Leadership Trust we've worked with thousands of leaders spanning over four decades and have brought some of that priceless experience of leadership to this course.

Leadership Fundamentals will equip learners with the fundamental knowledge to learn the craft of leadership and set them off on their leadership development journey with confidence that they have taken the best first steps in leadership
